SUMMARY

Web developer with **2+ years** of professional experience shipping production web applications using **Angular, React, and Next.js**, backed by **Node.js / Express** REST APIs. Contributed to three production client platforms, including **Bazarica**, a live multi-vendor marketplace, and built full-stack projects spanning e-commerce, online assessments, and role-based dashboards. Alongside development work, co-authored three peer-reviewed publications in applied deep learning, computer vision, and medical imaging.

TECHNICAL SKILLS

Frontend: Angular, React, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Sass/SCSS, Tailwind CSS, Bootstrap, Material UI

Backend & APIs: Node.js, Express.js, REST API Design & Integration, Authentication, JWT, CRUD, Payment Gateway Integration

Databases: MongoDB, MySQL, Firebase

State Management: Redux Toolkit, Context API

Deployment: IIS Server, Azure VPS, VPS, cPanel, Vercel

Dev Tools: Git, GitHub, VS Code, Postman, Figma

AI / ML Research: Python, TensorFlow, Keras, Deep Learning, Computer Vision, Medical Image Analysis

PROFESSIONAL EXPERIENCE

Web Developer — *Universal Technology Research and Development Ltd. · Remote* **Jun 2024 – Present**

- Translate changing business requirements into frontend features and workflow updates across enterprise client applications using **Angular** and **Next.js**, working closely with backend and product teams.
- Build and maintain **reusable component libraries** with TypeScript; integrate **REST APIs** end to end — managing data contracts, loading states, and error handling across application modules.
- Deploy to **IIS Server**, troubleshoot build configurations, and support ongoing production updates and maintenance.

SELECTED PROJECTS

Bazarica — Multi-Vendor Marketplace bazarica.com.bd

Next.js · React · Redux · Node.js · Express · MongoDB · Payment Gateway · Azure VPS

- Contributed to a live marketplace where sellers independently manage their own product inventory and orders, while admins review vendor accounts, monitor platform activity, and manage the overall catalogue through **role-based dashboards**.
- Implemented **payment gateway integration** and order confirmation flow for live transactions; built catalog search across vendors; handled production deployment on **Azure VPS**.

Nirnoy — MCQ Assessment Platform nirnoy.vercel.app | github.com/sifat26/Nirnoy

React · Node.js · Express.js · MongoDB · Tailwind CSS · Zod

- Built a server-authoritative examination platform where the **Node.js backend** controls question delivery, enforces time limits, and scores submissions — preventing clients from manipulating exam state.
- Applied **Zod** schema validation across all API routes; implemented result storage, session tracking, and score calculation in **MongoDB**.

Kahf Treasure — Fragrance E-Commerce kahf-treasure.vercel.app | github.com/sifat26/KAHF-TREASURE

Next.js · React · Redux Toolkit · Tailwind CSS · Node.js · Express.js · MongoDB · Cloudinary

- Full-stack e-commerce platform for an attar and fragrance shop — product catalogue, product details, cart, and checkout workflow backed by a **Node.js / Express** API and **MongoDB** data layer.
- Managed cart and session state with **Redux Toolkit**; handled product image uploads via **Cloudinary**.

Selfmetric — Communication Personality Assessment selfmetric.vercel.app | github.com/sifat26/Selfmetric

React · TypeScript · Tailwind CSS · shadcn/ui · React Router · Context API

- Scenario-based personality assessment that presents 32 original questions to calculate a user's communication archetype (Driver, Influencer, Supporter, Analyst) using a weighted scoring algorithm with consistency checking.
- Built with **React 18 + TypeScript**; result data encoded in URL for sharing; responsive UI with **shadcn/ui** and Tailwind CSS.

EDUCATION

B.Sc. in Information & Communication Technology **2020 – 2025**

Mawlana Bhashani Science & Technology University, Tangail · **CGPA 3.65 / 4.00**
