SUMMARY

Full-stack web developer with **2+ years** shipping **production applications** across frontend, backend, and deployment. Build and maintain live systems with **Angular**, **React**, and **Next.js** on the frontend, backed by **Node.js** and **Express** REST APIs. Delivered three paid client platforms in three-person teams — including **Bazarica**, a multi-vendor marketplace with payment integration and role-based dashboards. Also a graduate researcher in **applied deep learning** with a peer-reviewed publication at an **international conference** (ITSS-IoE 2025, United Kingdom).

EXPERIENCE

Universal Technology Research and Development Ltd. *Bangladesh*

Jun 2024 – Present

Web Developer

- Build and ship **Angular** and **Next.js** applications used in **live business operations**, translating design specs into **responsive, accessible** interfaces.
- Develop **reusable component libraries** that cut duplicate UI work across features and keep the codebase maintainable.
- Integrate **REST APIs** end to end — managing data flow, **loading and error states**, and coordinating **API contract** changes with the backend team.
- Deploy to **IIS Server**, configuring builds and resolving environment-specific issues in production.
- Partner with **backend, QA, and product** to align technical direction and keep releases moving.

Freelance & Contract *Remote*

2023 – Present

Full Stack Developer

- Deliver **client web applications** in three-person teams, contributing across **React / Next.js** frontends and **Express REST APIs**.
- Build features spanning **authentication, product and order management, catalog search**, and **multi-role dashboards**.
- Configure builds, **domains, SEO, and analytics** for deployments on **cPanel, VPS, and Azure**.

PROJECTS

Bazarica — Multi-Vendor Marketplace

bazarica.com.bd

Next.js · Node.js · Express · Azure VPS · Payment Gateway

- Built **role-based dashboards** for admin, seller, and customer in **Next.js**.
- Integrated the **payment gateway** and **order confirmation flow** for live transactions.
- Implemented **product and order management** against the **Express REST API**, plus **catalog search** across vendors.
- Set up **SEO metadata** and **Google Analytics**, and deployed on **Azure VPS**.

Atkias Zone — E-Commerce Platform

atkias-zone.vercel.app

Next.js · Node.js · Express · VPS

- Built **storefront and product pages** in Next.js against an Express REST API.
- Implemented **user authentication** and **session handling**.
- Set up **SEO metadata** across product and listing pages and deployed to a production VPS.

Outfitro — E-Commerce Platform

outfitro.com

React · Node.js · Express · cPanel

- Built the **storefront and product pages** in React and developed REST endpoints on the Express API.
- Modeled and integrated the **product and user data layer**.
- Implemented **authentication** and the **cart-to-checkout flow**, and deployed to cPanel hosting.

BlogNest — Full-Stack Publishing Platform

React · Node.js · Express · MongoDB · Firebase

Publishing platform with **rich-text authoring, nested comment threads, trending-post ranking**, and **Google OAuth**. Designed a comment schema supporting arbitrarily nested replies while keeping MongoDB read queries fast.

Woven Earth — Handcrafted Textiles Marketplace

React · Express · MongoDB · Firebase · Tailwind CSS

Marketplace for handcrafted textiles with a **self-service artist portal**, **category-based discovery**, and authenticated **per-user collections**.

SKILLS

Frontend: React, Next.js, Angular, JavaScript, TypeScript, Tailwind CSS, Bootstrap, Responsive Design

Backend: Node.js, Express.js, REST APIs, Authentication, Payment Gateway Integration

Databases: MongoDB, MySQL, Firebase

Cloud & Deployment: Vercel, Azure, VPS, IIS Server, cPanel

AI & Machine Learning: Python, TensorFlow, Deep Learning, Computer Vision, Medical Image Analysis

Developer Tools: Git, GitHub, Postman, Figma, Google Analytics, VS Code

Languages: Bengali (native), English (professional working proficiency)

PUBLICATION

An IoT-Based Lung Cancer Detection System from CT Images Using Deep Learning2025

ITSS-IoE 2025 — International Conference on Intelligent Technology, Systems and Services for the Internet of Everything, University of Wolverhampton, United Kingdom

Combines **IoT infrastructure** with **deep learning** to detect lung cancer from **CT images**, contributing on data pipeline design and model evaluation as a co-author.

EDUCATION

Mawlana Bhashani Science & Technology UniversityBangladesh2025 – Present

M.Sc. in Information & Communication Technology

Mawlana Bhashani Science & Technology UniversityBangladesh2020 – 2025

B.Sc. in Information & Communication Technology
